Github: <https://github.com/umair7228>

## SUMMARY

Creative Frontend Developer proficient in HTML, CSS, JavaScript, TypeScript, React.js, and Next.js. Experienced in designing responsive, visually appealing, and user-centered web applications, with a keen eye for UI/UX best practices. Known for building interactive interfaces and maintaining clean code, ensuring high-quality web experiences that are both functional and aesthetically engaging.

## PROJECTS EXPERIENCE

### Responsive & Animated Umair's Tech Showcase

A website designed to provide an exceptional user experience, showcasing my skills in Frontend Development and Data Engineering. It features an intuitive interface and interactive design, reflecting my commitment to clean, functional, and user-centric solutions. ( [Link given above to see all projects in live](#) )

### Comforty Furniture E-Commerce Website

Developed a responsive e-commerce platform for Comforty, specializing in modern furniture. The site features intuitive navigation, product categorization, and a seamless shopping experience, enhancing user engagement and satisfaction.

### School Academy Website

Developed a responsive website for an educational academy with Next.js, Tailwind CSS, and React.js. The design emphasizes easy navigation, clean visuals, and accessibility for students and educators.

### Tech Agency Website

Created a responsive, professional tech agency site using Next.js, Tailwind CSS, and React.js, featuring sleek animations and an intuitive layout to showcase services and projects.

### Personal Finance Dashboard

Built a static finance dashboard in Next.js for managing personal finances, allowing users to track bank cards, view transaction histories, and monitor financial summaries. This application prioritizes intuitive layout and usability, providing users with a clear view of their financial health through organized sections and visual representations.

### Amazon Clone

Developed a single-page e-commerce frontend inspired by Amazon's design, using HTML and CSS. This project replicates the core look and feel of Amazon. Focused on delivering a familiar interface with clean design elements for ease of user interaction.

### Portfolio Website:

Created a responsive, interactive portfolio website with HTML, CSS and TypeScript to display projects, skills, and experience. This site features smooth animations, and a user-friendly design, allowing users to explore my professional profile seamlessly across devices.

## EDUCATION

### Cloud Data Engineering

#### S.M.I.T ( Saylani Mass IT Training )

- 📍 Karachi, Pakistan
- Training in Cloud Data Engineering, focusing on cloud platforms, data pipelines, and SQL for efficient data management.

### Agentic AI Engineering

#### GIAIC ( Governor Sindh Initiative )

- 📍 Karachi, Pakistan
- Pursuing Agentic AI Engineering and Frontend Development at GIAIC, focusing on AI models, machine learning, automation, and building intuitive, user-centric web applications.
